

Stormwater Project Design from Planning to NOI

for Consulting/municipal design engineers, Land use planners/developers,
Stormwater professionals & Landscape architects

Thursday, May 19, 2016

Registration begins at 8 am
8:30 am to 4:30 pm

7PDHs, 7 LUs, and
7CEUs are expected
to be awarded.

Hilton Garden Inn, 1290 Arsenal Street, Watertown, NY

This comprehensive class will guide participants through the many steps of site planning, design, evaluation and reporting necessary for obtaining NYS DEC stormwater permit coverage in New York. We will work with a specific site beginning with the evaluation of pre-developed conditions and project objectives. Site planning, stormwater practice selection, and design will follow. Computations for WQv, CPv, OBv, ExSv, and RRv will then be completed. The class will conclude with the completion of the project's SWPPP outline, the NOI, and the establishment of a maintenance program for the site's stormwater facilities.

(NON-REFUNDABLE) **WORKSHOP FEE: \$200 per person**

Fee includes handouts distributed in class, refreshments, and lunch. Workshop may require the use of the NYS Stormwater Management Design Manual and/or the NYS Standards and Specifications for Erosion & Sediment Control. You may download them for free from the NYS DEC website: www.dec.ny.gov/chemical/8694.html or order them hardcopy for a fee through the Empire State Chapter Soil & Water Conservation Society.

For ordering information visit: www.swcsnewyork.org.

PRINCIPAL INSTRUCTOR: John Dunkle, P.E., CPESC, CMS4S

John has been a practicing civil engineer since 1981, and is a Certified Professional in Erosion and Sediment Control (CPESC), and a Certified Municipal Separate Storm Sewer System Specialist (CMS4S). Working with both private developers and municipalities on site planning and development projects, John has prepared and reviewed Stormwater Pollution Prevention Plans (SWPPPs), provided guidance for Municipal Separate Storm Sewer Systems (MS4s), participated with DEC in the development of the current stormwater regulations, and conducted stormwater trainings for contractors, developers, engineers, and municipal officials. John also teaches a graduate level Stormwater Management class at SUNY-Environmental Science & Forestry, and has been conducting stormwater trainings across NY State for over 11 years.

THIS REGISTRATION FORM MUST BE RECEIVED BY 5/12/2016
